Experience

LIDI IT – Web / App Developer

Aug 2022 – Present

- Started as a React Developer and transitioned to a React Native Developer after 8 months, contributing to mobile app development.
- Developed key features for the App on React Native, ensuring compatibility and performance on both Android (Play Store) and iOS (App Store) platforms, contributing to their successful launches
- Collaborated with team members to achieve target results.
- Updated old code bases to modern development standards, improving functionality.

Web Developer – Freelance

May 2021 – Aug 2022

- Collaborated with clients to understand their project requirements, provided recommendations for technical solutions, and delivered high-quality deliverables within project timelines.
- Demonstrated strong communication and problem-solving skills to address client feedback and implement changes to deliverables as needed.
